

# StorCenter™ ix2-200

## Network Storage Cloud Edition

Central storage, backup and  
shared accessibility

The iomega® StorCenter™ ix2-200 is a compact desktop network storage device for small businesses or advanced home networks.

### Powerful media server with anywhere access

- Easy to use and manage, set up in just three steps!
- Robust data management powered by enterprise-class EMC® LifeLine™ software
- iomega Personal Cloud is the most economical way to protect and share your valuable data
- Supports PC, Mac® & Linux® clients and is VMware® and XenServer™ certified
- Remote access from anywhere in the world to your photos, videos and other files via personal web address
- Built-in torrent support for peer-to-peer file sharing
- iomega QuikTransfer feature moves data from a USB drive or replicates your data without the need of a PC
- 2TB, 4TB and 6TB configurations

Available in 2TB, 4TB and 6TB configurations, the iomega StorCenter ix2-200 provides easy file sharing, iSCSI block access, and RAID 1 for optimized data protection. Business users will appreciate the robust data protection features such as UPS support, device-to-device replication, and user replaceable drives for business continuity and disaster recovery.

Home users benefit from the advanced media features such as the DLNA® certified UPnP® AV Media Server, torrent support, Bluetooth® upload, automated social media sharing to Facebook®, Flickr™ and YouTube™, and digital photography tools like Picture Transfer Protocol.

The built-in AV media server turns the StorCenter ix2 into a multimedia hub. Simply store and organize your content—then listen, view and access your files, videos, photos and music from any compatible device on your network.

### iomega Personal Cloud

iomega Personal Cloud is a patent-pending, web-based computing architecture that connects your StorCenter ix2 to other individuals and/or devices via the Internet. Unlike public and private cloud applications, iomega's Personal Cloud technology is completely self-owned – so the content and accessibility is always under your control. Best of all, there are never any usage fees or subscription charges, therefore delivering the best value for cloud access and protection.

With two or more StorCenter devices, the Personal Cloud allows you to automatically replicate data from your primary business to another location. Keeping this off-site copy ensures data availability in the event of an unforeseen disaster. The Personal Cloud also offers users remote access to files from remote locations – allowing members of the cloud to easily view, edit, and share files from outside the office. Security safeguards, such as encryption and password protection, ensure that the data stored in the Personal Cloud cannot be accessed by unauthorized users. Maintaining complete control over your valuable data has never been easier.

## Features and Benefits

- **Enhanced Operating System.** Powerful, award-winning EMC® LifeLine™ software allows users to store and manage all of their valuable data on one centralized, secure, affordable storage appliance.
- **System Status Dashboard.** The EMC LifeLine system status dashboard provides a one-stop-shop for space usage, device information, control, and status. If one of these components has encountered an error, you are linked to the page that requires your attention.
- **Sharing.** Access files from any networked Windows PC, Linux® or Mac® for easy file sharing, data backup and print serving .
- **Print Server.** Intelligent print sharing capability for up to three USB printers directly connected to the StorCenter ix2.
- **Iomega QuikTransfer.** With just one touch, transfer data from a USB drive or to run a replication job—without the need of a PC.
- **Remote Access.** You can safely connect to your valuable files from anywhere in the world, through an internet connection.
- **Power Savings.** Idle drive spin-down reduces power consumption; a variable-speed fan ensures that only the right amount of power is used to cool your device .
- **UPnP® and DLNA® certified.** StorCenter ix2 will work seamlessly with digital products you may own or buy from different manufacturers allowing you to save, store and stream all kinds of multimedia files.
- **Network File Protocols Supported.** CIFS/SMB/Rally (Microsoft), NFS (Linux/UNIX), AFP/Bonjour (Apple), FTP, TFTP, HTTP, HTTPS, WebDAV, Windows DFS, SNMP.
- **Bluetooth Upload.** Easily transfer contacts, photos and other information from your Bluetooth phone, pocket PC or BlackBerry to your computer. Optional USB Bluetooth adapter required.
- **Cloud Backup Options.** Back up selected files directly from your StorCenter to the MozyConnect™ Beta or Amazon S3™ storage clouds for off-site safekeeping of important data. Additional charges apply.
- **Time Machine®.** StorCenter ix2 will serve as a Time Machine target for your Apple® computer backups.
- **Device-to-Device Replication.** Replicate your data from StorCenter to StorCenter, to an external USB drive, or to another network target.
- **Virtual Environment Support.** VMware & XenServer certified for NFS & iSCSI.
- **User Quotas.** Manage capacity by setting a maximum for shared storage.
- **UPS Support.** Enables unattended system shutdown via the USB port without data loss in the case of power failure.
- **Social Media Sharing.** Convenient folders that automatically integrate with your social media accounts, including Facebook®, Flickr™ and YouTube™. Multiple accounts are no problem—just create another folder for each account.
- **Digital Photography Tools.** Picture Transfer Protocol (PTP): No touch, automatic transfer of photos from digital cameras via the USB port. Photo resize: Automatically resize photos any resolution. Watermark: Automatically add a watermark of your choosing to photos as they are resized.
- **Video Surveillance.** Connect up to 6 network security cameras, including Axis® and Panasonic®; captures and stores video without the need of a dedicated PC; Monitor live video from multiple simultaneous sources using a web browser; Embedded Axis Video Hosting Service (AVHS) provides cloud-based management of video cameras and management and storage of surveillance content.
- **Expandability.** Add storage capacity by connecting external USB Hard Disk Drives; read and write on Fat32, NTFS, HFS+, or ext2/ext3 formatted hard disks.

## Service And Support

Iomega support options deliver choice and flexibility. The StorCenter ix2-200 includes a standard three-year warranty with U.S.-based phone support thirteen hours a day, five days a week. Optional service plans available include the Enhanced Service Plan that includes 24x7 phone support with advance replacement.
